

# Apartheid San Francisco?

*Sounds extreme. So here's a look at a few of the SF Plan for Reparations provisions as proposed by the San Francisco African-American Reparations Committee. The page number refers to the page in the published 60-page plan where you will find the specific proposal. You can obtain a copy of the plan for reference at [RejectThePlan.com](http://RejectThePlan.com)*

*Combining all provisions below, the San Francisco Reparations Plan installs a neo-Apartheid system on a city of 45,000 Black/African-American residents being given super-prioritized services, funding and extraordinary privilege - out of total city population of 825,000. The result is Apartheid San Francisco, where 5% Black residents take the resources and economic earnings of the 95% non-Black residents.*
